

CLICK & GROW™

Click & Grow is looking for a qualified **Front-End Developer** for our Tartu or Tallinn office to code and modify our website from layout to function, creating a world-class experience for our customers.

You will be writing high-quality, well designed, testable and efficient front-end code. You will also be implementing designer mockups and wireframes, creating and maintaining integrations with the back-end. You will be working closely with the development and marketing team to improve the user experience. As a member of our IT team, you will participate in planning and designing new features.

We are looking for someone who has:

- An eye for design and a good sense of UX
- Fluent HTML, CSS, JavaScript skills
- Experience with Vue.js or any other front-end framework
- Experiences with SASS and Bootstrap grid framework and good responsive design skills
- Ability to plan your own time in order to meet deadlines
- Good analytical skills and experience with Google Analytics and A/B testing tools
- Very good English skills

Simplicity, quality, responsibility.

If these describe what you live by, and you are interested in this position, send your application and CV to jobs@clickandgrow.com.

You will be able to work flexibly in our inspiring green office in the center of Tartu or Tallinn, develop yourself in our enthusiastic fast growing international team and play a part in the success of a unique market-leading company.

Click & Grow is the leading innovator in sustainable, hyper-local food production. Our smart indoor gardens are used by hundreds of thousands of happy click & growers in over 150 countries. By combining the power of technology with the magic of nature, we change the way people think about and consume fresh food.
